

Comprehensive Renter's Insurance for international students "Ryuhosyo"

System to protect you against liability for accident and to mitigate the economic burden on joint sureties (*) for rental contract

In Japan, you need a joint surety to rent an apartment. Ryuhosyo is a system for international students where a school staff acts as the joint surety.

(*) Joint surety...If an international student (lessee) does not pay the rent, the joint surety pays the rent to the lessor on behalf of the lessee. If the joint surety paid, the international student (lessee) must reimburse the joint surety.

1. Coverage

This system is comprised of Overseas Travel Insurance (① Personal Liability Insurance for International Students and ② Insurance for a Disability Resulting from an Accident) and the Guarantors' Protection Fund (③ Guarantor Protection). For detailed information on coverage, please check "Summary of Coverage" (page 5).

① Personal Liability Insurance for International Students

I collided with a pedestrian and caused them injury

Accidentally I set my apartment on fire...

If an international student causes injury to another person or damage to another person's property due to "an accident in daily life" or "an accident while using an accommodation or residential facilities for studying abroad" and is held liable to pay indemnity, this insurance will pay the insurance claim.

(Note) For damage caused to rooms, the coverage will be limited to cases where the damage is due to fire, explosion, rupture and/or water leakage.

② Insurance for a Disability Resulting from an Accident

I crashed into a tree while skiing, and caused a lasting injury...

If an international students injury from "a traffic accident or any other accident while playing sports" and develop a disability within 180 days since the accident including the date of the accident, this insurance will pay the insurance claim according to the grade of the disability.

(Note) This does not apply to regular injuries with no lasting disabilities.

③ Guarantor Protection

If a lessor claims for guarantee liabilities to a guarantor because the student does not pay the rent or any other expenses and if the guarantor makes the payment, this fund will pay indemnity to the guarantor.

(Note) Applicable only in cases where the rental agreement is cancelled and the accommodation is handed over within the period of indemnity.

* Overseas Travel Insurance is an insurance where a comprehensive contract is concluded between (PIIF) Japan Educational Exchanges and Services, and Tokio Marine & Nichido Fire Insurance Co., Ltd.

For this reason, please note that you may be requested to make a statement about your residence status when signing an insurance contract or requesting an insurance claim.

④ In the event of the insolvency of the insurance company:

If the insurance company becomes insolvent, the payment of claims, repayment, etc. may be suspended for a certain time of period, or the amounts may be reduced. ⑤ Verification of the content of contract and of accident reports:

In order to prevent the occurrence of accidents with fraudulent contracts regarding accident insurance and to ensure the appropriate quick and secure payment of claims, the insurance companies make it a rule to verify the information registered in the General Insurance Association of Japan, when a contract is signed or when an accident occurs, regarding the insured, the insurance contract conditions relating to the accident, and the circumstances where the claim is requested. The obtained information will not be used for any other purposes. If you have any questions, please refer to the insurance company.

8. When in an Accident

Accordingly, please note that if an accident occurs and there is liability for compensation, based on the advise of the insurance company's supervising department, the insured (the one covered by the insurance) him or herself must enter into out of court settlement negotiations with the victim. Please note that if an amicable settlement is concluded without the approval of the insurance company, the full or partial amount of the settlement money may not be payable. (Request)

Explanation of Information Requiring Attention

1. Duty of Disclosure, Duty of Notice, etc.

(1) Special points to be considered when enrolling in this insurance

- Insurance is a system where many people pay premiums to compensate among each other when an accident occurs. Therefore, if people who have a higher chance of receiving the payment are allowed to join without any condition, the fairness of the insurance fee burden will not be preserved.
- For this reason, when enrolling, you have an obligation to submit important information to the insurance company (Duty of Disclosure) (and the insurance company holds the right to receive disclosure). For further details of the Duty of Disclosure, please refer to page 4.
- If the truth is not reported or things different from the truth are reported intentionally or by gross negligence, and if it is within 5 years since the submission of the insurance application, the insurance company may cancel the enrollment as a violation against the Duty of Disclosure.
- If the contract is cancelled, the claims cannot be paid, even if there is a good reason it should be. However, if there is no cause and effect relationship between the “occurrence of an accident to be covered by the insurance” and “actual cause of the cancellation”, the claims will be payable.
- Besides the cases where we cancel the contract, there may be other cases where claims will not be payable due to the circumstances when the contract is signed. For example, if the violation against the Duty of Disclosure is critical such as “you intentionally avoided to disclose us of the illness or symptoms that are difficult to cure with existing medical standards”, there may be cases where the claims are not payable regardless of how many years have passed.

(2) Items to pay attention to after enrolling (Duty of Notice)

Regarding the Duty of Notice for when you become engaged in a dangerous job during the period of indemnity (for example, professional boxing, professional wrestling, etc.), or the procedures when an accident occurs, please refer to page 4. If we do not receive any notice or if you do not complete the procedures, the enrollment may be cancelled or claims may not be payable.

(3) Contract renewal

Please note that there may be cases where continuation of a contract is refused or the conditions are restricted depending on the circumstances of the insurance claims.

2. Start of insurance liability period

Insurance liability, in principle, starts as the period of indemnity (insurance period) starts as shown on page 2.

3. Main Reasons for Exemption (Main cases where claims are not payable)

Please refer to page 5.

4. In the event of the insolvency of the insurance company

In the event that the insurance company becomes insolvent, the payment of claims, maturity repayment, etc. may be suspended for a certain time of period, or the amounts may be reduced. For details please refer to page 4.

(Continued on the next page)

5. Handling of Personal Information

Please refer to “Handling of Personal Information” on page 7.

6. Change to a New Insurance Contract

If you are considering enrolling into a new insurance contract, based on the assumption that you will either cancel the current enrollment or reduce the amount, please keep the following points in mind.

- ① Disadvantages you may get if you cancel the current contract or reduce the amount
 - In many cases, the repayment is less than the total amount of primes you have paid until then.
- ② Points to consider if enrolling in a new insurance contract
 - When we newly receive a disclosure for new enrollment, and if there is any information not being notified to us or if any information is different from the truth, there may be cases where it is considered as the violation against the Duty of Disclosure. In such a case, the enrollment may be cancelled and the claims may not be payable.
 - If an accident occurs before the start of the liability period for the insurance contract you are newly enrolled in, insurance money may not be payable.

7. Cancellation by Request from the Insured

There is a system where a insured can submit a request to cancel an enrollment related to him/herself. For details regarding the system and/or procedures, please get in contact with “contact information” listed in the pamphlet.

8. Insurance Claim and Payment

(1) Procedures in case of an accident

Regarding procedures for when an accident occurs, please refer to the pamphlet.

(2) Documents for insurance claim

When claiming for insurance, you may be requested to submit the following documents or evidence besides documents stipulated in the agreement.

- Documents or evidence that prove an accident has occurred and/or the circumstances of the accident, such as transport accident report, accident report prepared by a person in charge of the accident site, etc.
- Documents or evidence that could be used to confirm the person is covered by the insurance, such as certificate of residence, extract of family register, etc.
- Documents or evidence that prove the degree of injury or illness, such as X-rays or MRIs.
- Documents or evidence that could be used to confirm the price of the damaged item (receipts etc.), pictures of the damaged item, and any documents or evidence that could be used to confirm the expenses needed for its repair, such as quotation.
- Documents or evidence that could be used to calculate the amount of indemnity to be paid by us, the insurance company, such as payment breakdown document that shows the details of the claim paid by other insurance contracts etc.

(3) Insurance claim via a representative

If the insured has reasons he/she cannot claim the insurance and if there is no one else who can receive the payment as his/her representative, there are cases where a family member of the insured (spouse, for example) who fulfills the conditions set by the insurance company may act as his/her representative and claim the payment. For details, please get in contact with “contact information” listed in the pamphlet.

(4) Indemnity Payment

Besides the expense insurance, the insured may request indemnity for liability but exclusively in the following cases ① to ③.

- ① If the insured has already settled payment to the victim as compensation for damage
- ② If it is confirmed that the victim has agreed the claim may be paid to the insured
- ③ If the insurance company directly pays the indemnity to the victim based on the instructions by the insured
