Contact the section in charge as details differ by the school (student services, student support, insurance center, etc.).

(\* 20) Transfer fees related to the refunding of insurance premiums are the responsibility of the insured.

## II. Procedures in the event of an accident

### 1. Process flow of an accident

### 2. Procedures in the event of an accident

- (1) In the event of an accident that may be covered under this insurance, the student shall contact the school insurance desk of Tokio Marine & Nichido at ☎ 0120-868-066 (toll-free) without delay and report the details on the following page
- Your name, age, and school enrolled at
  - Time and date of accident
  - Place of accident
  - Injured party's name and age
  - Cause of accident
  - Extent of damages (injury or damage)

Please report accidents that occur away from Japan as well. The student may use a collect call in this event. A representative within Japan may report the accident instead if the student cannot make the call.

Please note that a delay in reporting the above may result in the reduction of claims payable, and the right to request claims is bound by the statute of limitations of three (3) years.

Please inform your school of the accident and the fact of having contacted and reported the above information to the insurance company. Out-of-court settlements with the injured party shall be conducted by the person at fault, the student (with a guardian in the case the student is a minor).

- (2) Students shall receive the designated forms indicated below from the school, fill out the required items, and get any necessary certification documents.
- ① Insurance claim document (also considered as a certificate documenting the accident)
  - ② Incidental Liability Certification of an Accident while Commuting between School Facilities (for cases travelling "to and from")
- (3) Submit the above two documents to the School Insurance Section of Tokio Marine & Nichido.
- ※ In principle, if the insured (student) is a minor, the guardian shall file for insurance claims.
- (4) The insurance company pays insurance claims. (Refer to <Cautions upon filing for claims> below.)

**Important: After paying the insurance, the underwriting insurance company shall inform the General Insurance Association of Japan about the payment and based on this, the Association shall send a report of payment of insurance benefit to the school. Information on the payment of the insurance benefit related to the accident shall be shared by the underwriting insurance company, the school and the Association.**

※ The amount of damages will be determined by considering the fault ratio of the injured party and other involved parties. Direct negotiations for an out-of-court settlement should occur between the injured and the injurer (the insured). However, since the injured party also shares fault, or that there were unavoidable forces at play, it is advisable to consult with the School Insurance Section of Tokio Marine & Nichido before finalizing any settlement, as the insured is often not solely responsible.

#### <Out-of-court settlement services>

Out-of-court settlement services are not provided by this insurance. Settlement negotiation services between the insured and parties who have sustained injury or damage are not offered as part of the insurance coverage. Therefore, in the event of an accident covered under this policy, please be aware that you are required to conduct out-of-court negotiations directly with the injured party, following advice from the School Insurance Section of Tokio Marine & Nichido. Additionally, be advised that admitting liability or agreeing to a damages amount without the approval of the underwriting insurance company may result in a partial or complete inability to claim insurance benefits.

#### <Cautions upon filing for claims>

In personal liability insurance the injured party in an insured event who has the right to request damages against the insured has a lien on the insured's right to request the underwriting insurance company to pay insurance claims (excluding the right concerning insurance claims for expenses) (Paragraph 1 of Article 22 of the Insurance Law). "A lien" means the victim's right to receive compensation for the victim's credits out of the insurance benefits prior to all other creditors. The insured may request the underwriting insurance company to pay claims to the extent of compensation made to victims or of the amount agreed by the injured party (Paragraph 2 of Article 22 of the Insurance Law).

For the above reasons, the amount of insurance claims which the underwriting insurance company may pay upon request from the insured shall be limited to the cases of ① to ③ mentioned below, with the exception of insurance claims for expenses.

- ① The insured has already settled compensation for damages to the injured party;
- ② The victim can confirm agreement given by the underwriting insurance company for the payment of insurance claims to the insured; or
- ③ Under instruction from the insured, the underwriting insurance company makes the payment of insurance claims directly to the injured party.

#### <Cases of concurrent insurance contracts>

Insurance claims shall be paid in the following manner in cases where concurrent insurance contracts or mutual aid contracts exist which duplicate in content with this insurance contract (hereinafter as "other insurance contracts").

- ① In cases where insurance claims or mutual aid benefits have not been paid by other insurance contracts:  
The payment of claims shall be made in accordance with the enrollment details of this insurance contract, regardless of other insurance contracts, etc.
- ② In cases where insurance claims or mutual aid benefits have been paid by other insurance contracts: The payment of claims shall be made in accordance with the enrollment details of this insurance contract with respect to the amount of damages after subtracting any insurance claims or mutual aid benefits paid by other insurance contracts.

arising from the insured incident occurring within 3 months of the suspension of payment by the insolvent insurance company). (Even in the event that the policyholder is not in a private individual contract, the above coverage shall apply to the insured individual(s) for the part of the contract which the individual(s) actually bear premiums.)
